

Curriculum Vitae

Affiliation

Name	Prof. Dr. Cornelia Schneider (Interim Professor)
Address	FAU Erlangen
	Mathematics and Data Science Departments
	Cauerstr. 11
	91058 Erlangen, Germany
Phone	+49-(0)9131-8567207
Email	cornelia.schneider@fau.de
Homepage	https://corneliaschneider.github.io/

Education and Professional Career

2025–2027 **Substitute W3-professorship "Data Science"**, *FAU Erlangen, Germany*

07/2020 **Habilitation**, *Philipps-University Marburg, Germany*
Habilitation thesis "Besov regularity of partial differential equations, and traces in function spaces"

since 2018 **Akademische Oberrätin (Assistant Professor)**, *FAU Erlangen, Germany*
2023–2024 parental leave

2010–2018 **Akademische Rätin (Lecturer)**, *FAU Erlangen, Germany*
2013–2014 parental leave

2009–2010 **Postdoc**, *Universidade de Coimbra, Portugal*

2006-2009 **PhD**, *University of Leipzig, Germany*, Junior research team "Analysis, geometry and their interaction with the natural sciences"
PhD thesis "Besov spaces with positive smoothness", supervisors: Prof. D. D. Haroske and Prof. T. Kühn

2004–2006 **Graduate Studies**, *FSU Jena, Germany*, Mathematics with minor Physics, Diplom, Grade: 1.0 (passed with distinction)
Master thesis "Growth Envelopes in Sobolev Spaces", supervisor: Prof. D. D. Haroske

2003–2004 **Study abroad**, *University of South Australia in Adelaide, Australia – University of Auckland, New Zealand*

2000–2002 **Undergraduate Studies**, *FSU Jena, Germany*, Mathematics with minor Physics

1992–2000 **School**, *St. Josef Gymnasium Dingelstädt, Germany*, A-level, Grade: 1.0

Grants

2024 **Grant of the German Research Foundation (DFG)**, *Germany*, for International Scientific Events/Annual Conferences (20.000 Euros)
Together with D.D. Haroske.

2020-2021 **Grant of the German Research Foundation (DFG)**, *FAU Erlangen-Nuremberg, Germany*, temporary position for principal investigators (139.600 Euros)

2017-2019 **Grant of the German Research Foundation (DFG)**, *FAU Erlangen-Nuremberg, Germany*, temporary position for principal investigators (177.000 Euros)

2010 **Grant of the Foundation for Science and Technology (FCT) (3+3 years)**, *Portugal*, declined due to permanent position in Erlangen

Scholarships

2024 **DAAD scholarship and travel expenses**, *Germany*
3 months visit to Argentina for my PhD student Nick Schneider

2023 **Schmauser Stiftung**, *FAU Erlangen-Nuremberg, Germany*, travel support (6000 Euros)

2009–2010 **CMUC Post-doc scholarship**, *Universidade de Coimbra, Portugal*

2006–2009 **Scholarship of the German Research Foundation (DFG)**, *University of Leipzig, Germany*, Junior research team "Analysis, geometry and their interaction with the natural sciences", PhD

2003–2004 **Study abroad scholarship**, *Australia/ New Zealand*

Awards

2026 **Teaching Award of the Faculty of Science**, *FAU Erlangen-Nuremberg, Germany*

2024 **Award for an outstanding Master's thesis**, *received by my student Nick Schneider*

2022 **Performance bonus**, *FAU Erlangen-Nuremberg, Germany*

2019 **Call for W2-professorship "Harmonic Analysis"**, *TU Chemnitz, Germany*, declined

2019 **Women's Prize**, *Faculty of Sciences, FAU Erlangen-Nuremberg, Germany*
1/2 position for a PhD student for 1 year

10/2007 **Exam award**, *FSU Jena, Germany*

Languages

German	Mother tongue	
English	C1	*Good negotiating skills*
Portuguese	B2	*Fluent*
French	B1	*Intermediate*
Spanish	B1	*Intermediate*
Latin	Qualification	

Academic self-administration and Outreach

04/2026- **Master's Admission Committee for Data Science**, *FAU Erlangen*

2025- **Deputy head for the planning of engineering lectures**, *FAU Erlangen*

2024 **Organisation of the international conference Function Spaces, Differential Operators and Nonlinear Analysis (FSDONA-2024)**, *September 2024*, approx. 80 participants
Together with D. D. Haroske, M. Weimar, and G. Byrenheid.

2022 **Admission Master Data Science**, *FAU Erlangen*

2021 **Organization of the orientation week**, *FAU Erlangen*
For 1st year students, together with Prof. C. Meusburger.

2021-2025 **Representative for mid-level academic staff in the math department committee**, *FAU Erlangen*

2020 **Mentor in the ARIADNEtechnat program**, *FAU Erlangen*

2019 **100th anniversary year of Emmy Noether's Habilitation**, *FAU Erlangen*
Presentation.

2019-2021 **Girls and technology internship**, *FAU Erlangen*
Organisation and representation of the section *'How mathematics helps to look inside a human body'.*

2014-2021 **Member of the study commission Energy engineering**, *FAU Erlangen*

2010-2013 **Maintenance of homepage for the Chair of Scientific Computing**, *FAU Erlangen*

2010-2013 **Women's representative**, *FAU Erlangen*
Organization of the Girl's days 2011–2013; voting member in various appointment committees.

Publication List

Schneider, Cornelia, *Google Scholar Profile*
https://scholar.google.de/citations?user=gXnBGWkAAAAJ&hl=de

Book

C. Schneider, *Beyond Sobolev and Besov: Regularity of solutions of PDEs and their traces in function spaces*, Lecture Notes in Mathematics 2291, Springer, 2021, https://doi.org/10.1007/978-3-030-75139-5

Submitted and preprints

[43] **J. Billner and C. Schneider**, *Schauder and Riesz bases for higher-dimensional Lebesgue spaces inspired by ReLU neural networks*, submitted, 2026, arXiv:2610.14266

[42] **S. D. Moura and C. Schneider**, *Fractional gradients and nonlocal PDEs in variable exponent spaces*, preprint, 2026, arXiv:2610.08253

[41] **P. Morin, C. Schneider, and N. Schneider**, *Approximation classes for the anisotropic space-time finite element method. An almost characterization*, submitted, 2026, arXiv:2602.14921

Publications

[40] **V. Kulbatov, J. Lang, C. Schneider, and J. Vybíral**, *Bases of Lebesgue spaces formed by neural networks*, to appear in JFAA, 2026, arXiv:2511.23179

[39] **M. Ullrich, C. Schneider, and J. Vybíral**, *Nonlocal techniques for the analysis of deep ReLU neural network approximations*, J. Mach. Learn. Res., 27(11):1–41, 2026, arXiv:2504.04847

[38] **P. Morin, C. Schneider, and N. Schneider**, *Anisotropic approximation on space-time domains*, J. Approx. Theory, 317:106282, 2026, arXiv:2506.19517

[37] **S. Dahlke, M. Hansen, and C. Schneider**, *Weighted Sobolev and Besov regularity of non-linear parabolic PDEs on non-convex polyhedral domains*, Z. Angew. Math. Mech., 106(8),e70538, 2026, arXiv:2105.13355

[36] **M. Hansen and C. Schneider**, *Refined localization spaces, Kondratiev spaces with fractional smoothness and extension operators*, to appear in Z. Anal. Anwendungen, 2024, arXiv:2405.06316

[35] **S. Probst and C. Schneider**, *Improved universal approximation with neural networks studied via affine-invariant subspaces of $L_2(\mathbb{R}^n)$*, Electron. J. Appl. Math. 3(1), 2025, https://doi.org/10.61383/ejam.20253188

[34] **P. Cioica-Licht, C. Schneider, and M. Weimar**, *Sobolev spaces with mixed weights and the Poisson equation on angular domains*, Ann. Scuola Normale superiore - Classe di Scienze, 49, 2025, arXiv:2409.18615

[33] **M. Actis, F. Gaspoz, P. Morin, C. Schneider, and N. Schneider**, *Direct estimates for adaptive time-stepping finite element methods*, J. Complex. 87, 101918, 2025, https://doi.org/10.1016/j.jco.2024.101918

[32] **M. Hansen, B. Scharf, and C. Schneider**, *Relations between Kondratiev and refined localization Triebel-Lizorkin spaces*, J. Approx. Theory 106162, 2025, https://doi.org/10.1016/j.jat.2025.106162

[31] **M. Hansen and C. Schneider**, *Embeddings and pointwise multiplication in Kondratiev spaces on polyhedral type domains*, Z. Anal. Anwendungen, 44(1/2): 35–77, 2025, https://doi.org/10.4171/ZAA/1779

[30] **C. Schneider and J. Vybíral**, *A multivariate Riesz basis of ReLU neural networks*, Appl. Comput. Harmon. Anal., 68: 101605, 2024, https://doi.org/10.1016/j.acha.2023.101605

Previous teaching

SS 2009 **Teaching assistant**, *Complex Analysis*, University of Leipzig, Germany

WS 08/09 **Teaching assistant**, *Analysis I for Physicists*, FSU Jena, Germany

WS 08/09 **Teaching assistant**, *Measure and Integral Theory*, University of Leipzig, Germany

Supervised students - PhD

since 10/2026 **Julian Billner**, *Dissertation*, Overcoming the curse of dimensionality: A basis-theoretic approach to neural network approximation (working title), FAU Erlangen-Nuremberg, 20XX

since 01/2024 **Nick Schneider**, *Dissertation*, Adaptive methods for solving evolution equations on non-smooth domains: Convergence rates and approximation classes studied via regularity in anisotropic Besov spaces (working title), FAU Erlangen-Nuremberg, 20XX

2019-2022 **Florá Orsolya Szemenyei**, *Dissertation*, Besov regularity of elliptic and parabolic PDEs with inhomogeneous boundary conditions on Lipschitz domains, FAU Erlangen-Nuremberg, 2022
now: Universa Versicherung, Nuremberg

Supervised students - Master thesis

Duygu Nacar, *Nonlinear approximation rates and Besov regularity for elliptic PDEs on polyhedral domains*, (current)

Felix Dauerer, *Path regularity of Brownian motion*, (current)
